

Helper Parent Scheduling

Parents will sign up for helper days on signup.com. Families that do not sign up will be added to the schedule where needed. If you have significant scheduling restrictions due to work, child care, or health, please contact the Scheduler.

The completed helper schedule will be posted by the last Tuesday of the month on the member website and on the bulletin board above the fish tank in the classroom. You will also receive a reminder email two days in advance.

Number of Helper Days

Due to differences in enrollment and number of class days each month, the expected number of helper days varies by class and month. The sign-up calendar will note the number of days needed per student for that month. The Scheduler will track the number of helper days with the goal of a fair distribution over the year. Generally, 3/4 parents have 1 helper day per month, and 4/5 parents have 1-2 helper days per month.

Changes to Schedule

Once the calendar has been posted, if you need to change your scheduled helper days, please trade with another parent in your class. Please note the change on the posted classroom calendar and/or by an email to the Scheduler.

For illness or other short-notice absences, please contact the Emergency Helper for your class. You must also submit a fee slip and a check (payable to BCP) for \$10.

Snack

Helper 1 brings a snack for the whole class.

The 4/5 class will be cooking their snack each Wednesday. The 3/4 class will be cooking their snack once a month, beginning in October. Both Helper 1 and Helper 2 will bring ingredients for the snack. The online calendar and reminder email will include information about what to bring.

Field Trip Helpers

Helper 1 brings snack, in individual servings.

All parents will bring a water bottle for their child.
